GIFTED STUDENTS WIN HONORS

The college has long been conscious of its obligation to provide, for the gifted student, an opportunity for her to enrich her intellectual life by independent study and investigation. It also feels that the capable student should not only be permitted, but encouraged, to explore some topic of interest to her more intensively than the usual college course in that subject would allow her to do.

Consequently the Honors Program was established in 1948. Fifty some students have taken part in the program since its founding, their topics of special study ranging from subjects like "Approximations to Differential Equations" to "Realism in Petronius."

The chief difference between Honors work and regular college work is a matter of intensity. The regular college program is made up of general liberal arts courses and allows for some specialization in a major field while the Honors Program, which is designed to give students opportunity to pursue a particular topic in an individual and intensive manner, provides training in methods of independent study and research.

Applications for Honors work are filed by May of Junior year. An applicant must have a B+ average in major and related fields and a general average of B for five semesters. She is expected to possess mature judgment, a sense of responsibility and creative ability. Instead of attending regular classes in her chosen subject she works under a fac-

ulty adviser who devotes a minimum of one and a half hours weekly to conferences with his advisee.

By May of Senior year she is required to have completed a research thesis, a series of brief scholarly essays, or some creative project and to submit to examination (usually oral). A successful candidate then receives at least six credit hours for the honors work (eight if it is in the sciences), and, provided she meets other graduation requirements, she is awarded a degree "with Honors."

At present four members of the Class of 1965 are working for the coveted Honors degree. *Sonja Elaine Algren*, a biology major, is doing a study of kidney aggregates in tissue culture and three English majors, *Linda Cline*, *Con-*

Agents for the Class of 1965 pose in front of Spotswood Alumnae House. Left to right: Joye Prier, American studies major from Onancock; Carol Turner of Exmore, a psychology major; Barbara Hill, English major from Virginia Beach; Flo Daniel of Portsmouth, chemistry major and Head agent; and Penny Partridge, a math major from Waynesboro. All are from Virginia and all plan to teach. Flo Daniel is engaged to marry William C. Jamerson of Portsmouth and will live in that area. The class list has been divided alphabetically by maiden names, so please send your news to the agent who has your name. Barbara Hill has names A-C; Penny Partridge, D-J; Joye Prier, K-Q; and Carol Turner, R-Z.

names of the five agents for the Class of 1965 a happy note comes into this sombre picture of Seniors contemplating farewells.

These five girls, *Florence Daniel, Penelope Partridge, Barbara Hill, Joye Prier*, and *Carol Turner*, will try to keep in touch with all members of the class, no matter where they may go—and that will be no small task. They will collect and prepare class news for the alumnae publication and they will help to organize class reunions. Through these agents each Senior will be able to keep in touch with the College and her friends—but only if each member of the class keeps the agents informed about addresses, names, jobs, etc.

All of this work will be done under the guidance of the Alumnae Association, an organization whose only purpose is to serve the college and her alumnae. On graduation day each Senior becomes a member of the Alumnae Association and as an alumna will always have a place here at Mary Washington. There is even a very special spot that is hers to use—the Spotswood Alumnae House. Many will move to areas where groups of MWC alumnae have formed chapters and members of the Class of 1965 will be most welcome.

So when that all important day comes round—May 29—the Alumnae Association will take great pleasure in saying to the Class of 1965, NOT GOODBYE—but HELLO!

GREETINGS TO THE CLASS OF '65 . . .

Had I known six years ago, at the time of my graduation from Mary Washington, that I would be directing this message to you of the Class of 1965, I most likely would have attempted to record my reactions to the occasion. In so doing, I might now more easily recapture the excitement and enthusiasm, and even the slight trepidation which is yours as June approaches.

As I welcome you to the Alumnae Association on behalf of the thousands of women who have attended Mary Washington, I wish to encourage you to enjoy to the fullest the opportunities for academic stimulation and rewarding friendships which remain to you until graduation, for never again will you have quite the same opportunities. Mary Washington offers that intangible "something" in both areas which you will only fully appreciate from the vantage point of time.

Congratulations, then on your achievement of this milestone. We look forward to your continued interest in the College through your support of the Alumnae Association and through your participation in its activities.

NOT GOODBYE — HELLO!

Every year about this time members of the Senior Class begin to count the days until graduation. On many calendars there are rings around Saturday, February 20, marking the 100th day until graduation—a reminder that there is only a limited time now to enjoy life at MWC—that farewells are near.

But with the announcement of the

Alumna Wins Allan Nevins Prize

A petite history major from the class of 1947, *Willie Lee Nichols* Rose, achieved distinction when, in 1963, after six years of graduate study and research, she was awarded the Allan Nevins History prize by the Society of American Historians for the best written doctoral dissertation in the field of American history. The dissertation, "Rehearsal for Reconstruction: Port Royal Experiment," earned her a Ph.D. at Johns Hopkins University in June 1962 as well as the award, which included \$1,000 in cash and the publication of her work.

Published in 1964 by Bobbs-Merrill, the book received favorable reviews. In the Raleigh, N. C. *News and Observer* a reviewer wrote, "Willie Lee Rose, in this excellent book about the first experiments with freedom of the Negroes on the South Carolina sea islands during the Civil War, has not only written about the 'rehearsal for reconstruction.' Also she has produced a book which throws much light on white and black relations in America today.

"The problems of reconstruction . . . did not begin in the aftermath of Appomattox. The Civil War was not a year old when a great Union force poured ashore on the islands about Port Royal Sound . . . [and was faced] suddenly and without preparation [with] the whole problem of what to do with the freed men . . ."

A review in *The New Yorker Magazine* states, "She has made her tragicomic narrative as immediate as fiction by digging out the records left by the participants in these efforts. . . ."

Henry Steele Commager in *The New York Times Book Review* wrote, "Mrs. Rose . . . has given us what is assuredly a definitive work."

Professor C. Vann Woodward, with whom she worked at Hopkins, stated in his introduction to her book, ". . . The Port Royal Experiment offers a rare opportunity to review the vast spectacle of reconstruction in miniature. . . . Mrs. Rose writes with rare perception, understanding, and detachment. . . . Perhaps her clearest triumph is in her description of the nuances of change by which a

slave became a free man, how a chattel became a person, and the changes in personality and identity that accompanied the transformation . . . [she] has made a rich contribution to the history of Reconstruction. Her study shows that the rehearsal on the Sea Islands not only played a part in shaping federal policy for Reconstruction, but that it also influenced the nation in adding to the initial war aim of the Union, the eventual commitment to Freedom and . . . the still unfulfilled commitment to Equality."

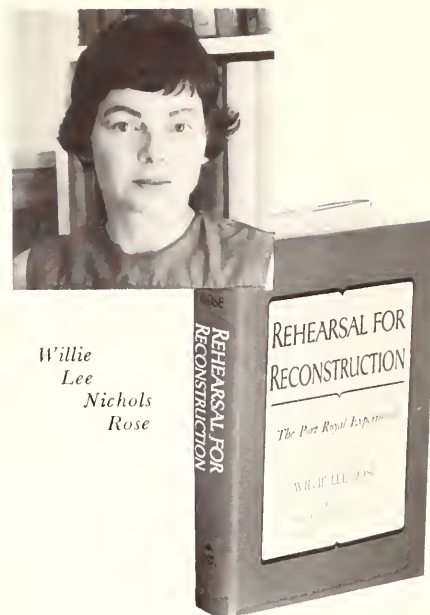

Willie Lee told a reporter of the *Baltimore Sun* that she has no aspirations to become an historical novelist despite the drama of her selected field of study. She does not like what she calls "shoddy popularization of history" and would prefer to be the author of a good history textbook.

At present she is working on two new studies: one a documentary account of slavery in America, the other a study of the social and economic implications of the Civil War in New Jersey.

Born in Bedford County, Va. in 1927, Willie Lee entered MWC in 1944 and received a B.A. degree in 1947. She studied history with Dr. Hildrup, Dr. Lindsey, and Dr. Darter; English with Dr. Whidden; German with Dr. Brenner. "These are the people that stand out most in my mind," she said. "I was very serious about the German but majored in history and took a minor in English literature. Extra-curricular activities were limited, I fear, to socializing with fellow students, and the International Relations club.

"I was at MWC during Mrs. Bushnell's famous tenure, and I suppose most of the stories we remember best about the college had to do with her remarkable personality. She had a famous saying to the girls who lived in her dorm about honor. 'It is what you are in the dark,' she used to say, and this . . . was usually prompted after she had enjoined us solemnly not to eat those cream puffs she had brought up for house meetings until we got back to our rooms."

After MWC Willie Lee taught school in Maryland for two years and in 1949

she married William George Rose, a graduate of Brown University. They both entered Johns Hopkins University in 1955 to study for their doctorates and their joint efforts were crowned in June 1962 when he got his doctorate in Fluid Mechanics and she for her "Rehearsal."

During those years at Hopkins Mr. Rose was an instructor, did contract research during the day and worked at night on his dissertation. Willie Lee attended classes, kept house, taught at Towson State College and worked on her dissertation. "I don't think," she said, "we had any of those dramatic sufferings people sometimes complain of in graduate school. Perhaps if we had been in a bigger hurry to get out we would have had them."

She received her first real encouragement in 1957 when she won a departmental prize for the best graduate paper of the year and she knew she then had more than just a hobby.

Fellowships from AAUW and the Social Science Research Council came along as well as membership in Phi Beta Kappa. For a time she taught at Goucher College. The Roses are living in Charlottesville as Mr. Rose is an Associate Professor in the School of Engineering at UVa.

We are very proud of our Willie Lee and are eager to read more of her work.

Marguerite Crumley has been appointed Supervisor of Business Education in the State Dept. of Education. She has long been active in the Dept and we were proud to hear of her appointment, though knowing her capabilities it came as no surprise.

We drove through the campus recently on our way back from Lynchburg. It was raining but the charm of the old center campus remained much as it has been for the past 25 years. Seems incredible that time has marched so quickly and that our "War Baby" enters college next year.

We hear less and less news from classmates.

'39 *Doris Stagg* Pruden
Route 2, Box 225, Windsor 23487

Please write to me about yourselves and others in our class. Also remember the Alumnae Fund!

Marion Timberlake Yobs is teaching at John Randolph Tucker HS in Henrico Co. *Ruby Mallory* Gibson is history and math teacher at Louisa Co HS. She has a 16-yr-old son, a HS sophomore.

Mary Helsabeck Townsend and Louise Harris Massie see each other occasionally. Mary has four children, two sons at VPI. Louise has three children. Kathryn Nicholas Winslow's daughter graduated from college in less than three years and is teaching English in Princess Anne HS.

Irene Lundy Brown is in Newport News. She has two children, a son at UVa and a girl in HS. Margaret Ashby Williams is in Lexington. I met her daughter who comes to Newport News to visit her grandmother. I think she is in college now. Ida Hill Freeman of Suffolk has one girl, a HS senior.

I wish each you could have been with us at the class reunion last May. It was wonderful to see everyone again. I rode up to MWC for the homecoming with Myrtis Hall O'Sullivan, who lives in Newport News. Our roommate that weekend was Henrietta Roberts Echols. It was good to see her—she hasn't changed a bit.

Mary Helsabeck Townsend, Tess Boggs Wilson and Louise Harris Massie all slept in Mrs. Bushnell's room on 2nd floor of Va Hall. This really brought back a lot of memories.

Please let me hear from you and make plans to go to Homecoming this May.

Jane Dunkley McClure invites us all to visit her large old home in Alva, Okla. and see her mare and year old colt. She has four children but apparently hasn't filled the

house yet. She expected a visit last July from *Jane Clatterbuck* Humphrey, MWC '48. The husbands of the two Janes were roommates when at USNA, Annapolis. The Humphreys were being transferred to San Diego.

Delma George is now a Major in the Woman's Army Corps and is stationed at Fort Lee. *Barbara Daniels* Johnson visited the World's Fair last summer with her husband and three daughters. Thought it spectacular. Then they relaxed by camping a week near Lake George, NY.

He won a \$750 award last fall in an art competition where his work was one of ten chosen from 800 entries. In November he held his first one-man art show at the Smolin Gallery in NYC.

Helen A. Rowe has been appointed district home demonstration agent for the north-east district of Va. She will have headquarters in Richmond. She holds an MS degree in education from U of Md. *Peggy Elliott* Sweeney and her husband attended the World's Fair without their children.

Early last June *Georgene Lee* Magruder was killed in an auto accident in Winchester. She left an 8-yr-old son and her husband. Let us all send our prayers to her son and husband.

The Libis family were at a YMCA camp at Estes Park, Colo, last July while Claude attended a conference. They spent an extra week in the Rockies and enjoyed the trip back through the Black Hills. In Oct they all saw the World's Fair.

Elizabeth Fischer Gore has moved from NY to McLean. They have four children. She is planning to attend Homecoming this May.

I really don't have much news but I'm hoping to hear more at Christmas time. Please try to set the weekend of May 29 aside for our 15th reunion.

Hear that *Mary Paasch* Schoof is near Fresno, Calif. Dick teaches in a regional HS out there. They drove out from Boulder, Colo and visited the National Parks on the way.

Nat Dodson May, of Coral Gables, Fla, is living in her own home. She likes being able to attend Alumnae Chapter meetings down there. She has seen *Barbara Green* Gates and *Claire Doiron* Bullington '49. She said she took her children to see MWC when visiting Va last summer.

Betty Gavett Lampard is settled in an apt at Scott AFB since leaving Utah in June '64. She works with the choir and in the chapel and is also a den mother, room mother, and enjoys bowling. This summer they had a two-day sight seeing trip to DC.

Since I last wrote I have received news from girls from all parts of the country. *Nancy Leonard* Rausch, after a year and a half in Hawaii, is in Los Angeles. She would like to meet other MWC girls out there. Robert is an engineer for Douglas Aircraft. They have sons aged 10, 9, and 5.

Cyn Medley wrote from Frankfort, Ky that she continues to write. She has had some songs published this last year. *Irene Kessler* Kuritzky, Mamaroneck, NY, asked about becoming a member of the Alumnae Assn. Girls, you are eligible for membership even though you did not graduate. Irene and Phil own a glass business. They have two sons, 13 and 9. She said she wishes she had a girl for future enrollment at MWC.

Irene wonders if anyone remembers *Surette Lewis* Gettman who left MWC freshman year. Surelle now lives in Silver Springs, Md. I was thrilled by a long letter from our long silent classmate, *Lucy Ring*. Lucy is back in El Dorado working for the president of Murphy Oil Corp—a company that markets under the SPUR brand in 24 states. A real golf enthusiast, she had just returned from a state golf tournament. She and *Bobbie Kelley* have a lot in common.

We had two brides during the last year. *Edwina Doyle* became Mrs. Burke Howell of Suffolk, and *Mary Lee Wong* is now Mrs. Robert Moy of Oxon Hill, Md. *Carolyn Bowers* Atwell has completed her 10th year of teaching and is now taking indefinite vacation. She and Paul recently moved to Morganton, NC, where Paul became general manager and sales director of Knob Creek Lamp Corp. They hoped to adopt a child by Dec. Good luck, CB, and let us hear from you.

Girls, as I go through my Alumnae Box I find many unclaimed mail slips. This means you and your friends move leaving us no address, so the mail is returned. Not only is this a financial loss, but we lose contact with you through no fault of ours. Please notify me or the alumnae office of a new address. It is most discouraging to get back mail marked unclaimed. Those of you who read this please send me the addresses of any girls who have moved within the last 18 months so we can get our files up to date.

This is certainly a nation on the move. Hardly do I get the new addresses recorded when they are obsolete. Incidentally, if at any time you want an address or wish to read the full communication of a girl mentioned, just drop me a line and I'll be glad to send it to you. Many girls write saying they would love to hear from other girls or have them visit, but I can't repeat all this due to lack of space in the *News*.

To *Marie Rhodes* Cappiello, her 3rd child and 2nd girl, Jan 1963. *Freddie (Joy) Goldman* Poll sent a long letter about her new life as wife of a cantor. Irving became a certified cantor and is now serving his first congregation in Willimantic, Conn. Freddie is organist and accompanist for him at all

services. She is a substitute elem teacher so her hands are full with a son 10 and twin girls 9.

Andy Puryear Phillips is back in the US. Her father sent her address. We wish to extend sympathy to Andy and Mr. Puryear on the death of Mrs. Puryear.

Mary Louise (Lupe) Kirkendall Feeney has caught up with *Ann Penney* Ross. Both now have seven children. If anyone in the class of 1951 can top these two let me know. But Lupe sets the record in that she had her 7th girl in Aug. She wrote, "No boys, yet." And with seven daughters Lupe has time to be president of the Woman's Club of Glastonbury, Conn!

Jean Carver Minter is now Mrs. Alfred D. Potter and lives in Norfolk. After a tour of duty in Alaska, *Hester Holland* Neal and her three children are in Hampton while John, an army career man, is on duty in Korea. Hester teaches piano. She still keeps in touch with *Audrey Crittenden*, her roommate for three years. Audrey lives and works at Dahlgren.

Lois Bellamy Martin of Norfolk has three children 11, 10, and 8. Her daughter is already planning to attend MWC. After three years as General Manager of a liquor factory, *Belen Camacho* switched to being a purchasing agent for CARIBAIR, Caribbean Atlantic Airlines. She flies the Caribbean frequently.

To *Joanne Hamilton* Granzow, Dayton, Ohio, a son, Sept 1963, after three girls 9, 7, and 3. *Frances Carter* Dugger of Fairfax has a daughter 3. Bob is with the Dept of the Army at Fort Meyers. She and *Mary Jane Park* Barrett teach at Centreville Elem in Fairfax Co.

Sarah Herring Estes of F'burg was honored this last year by being chosen as Club Woman of the Year by the F'burg Jr Women's Club for her efforts in securing a juvenile probation officer and judge for the area. Sarah is Northern District project chairman and chairman of the local club's Community Improvement Committee and Parliamentarian. She has been very active in MWC Alumnae work too.

Frances Chesson LaCamera of Florida has a girl 7, a boy 5, and a baby son born last April. *Carol Butler* Stephan has five little ones. Her 5-yr-old wants to move from NC because he wants a live armadillo and can't have one there. Can anyone from Texas help Carol?

Last report on *Johanna Ridgely* Cinquegrana placed her in NYC. Husband Aurelio works for Alitalia Airlines and they take yearly trips, courtesy of Alitalia, to Italy so the grandparents can see and enjoy the boy 7 and girl 5. Johanna wants to see some MWCers who live in NYC.

Betyann Schmutz Etzel's husband is president of Cermtronics Inc of which he is owner and founder. The firm serves ceramic and electronic industries. Betyann has an MA from Newark State College '60. They live in Breton Woods, NJ.

Dorothy Belden Wood still teaches kindergarten at her church in Ala. She has a girl

in 2nd grade and a boy in kindergarten. *Kenneth Williams* and wife *Nancy Rutherford* of St Mary's, WV have a son and daughter. Kenneth is now asst chief chemist at the Long Beach plant of Union Carbide's Silicones Division.

A baby for *Ginny Orkney Philbrick* '52 in Dec 1963. She and Phil are in Novato, Calif in a new home they helped design themselves. Found long lost *Molly Bettcher* Staubach. Wonder if she knows she was lost? She and Bill have three children and live in Succasunna, NJ where Bill is in Bell Telephone Labs. This information came from *Jean Caldwell Carver* '50. She and her husband, also with Bell, live in Bethlehem, Pa but were formerly Molly's neighbors. Jean has two girls.

We are proud of *Donna Hankla's* singing success both here and in Europe. She uses the name Maria Dornya and has sung "Salome," "Die Walkure," "La Vestale" to mention a few. She has sung in the Empire State Music Festival and the Columbia Community Concert Series. Would love to know where you are and what you are doing now, Donna.

The Hill's news is that Bill is working on his PhD at Colorado State. The children and I will stay here in Angola until he finishes. When we visited him in October the highlight of the trip was a wonderful reunion with *Winnie Horton Brock* who lives in Denver. Since I last saw Winnie at her wedding 13 years ago she has had six children, 5 girls and the last one a boy. She has changed only in that she wears glasses. Ted made her put them on when he found out she was seeing only half the world.

We talked for six solid hours and I almost missed the train. Most of our talk was of MWC days and where the girls are now. Winnie said she and *Al Ponte Woodruff* '50 had a grand visit a year ago.

Joke of the year was that yours truly had the measles in May. Can anyone match that? Keep writing girls and please send me addresses, your own and others.

'52 *Nancy Stump Motley*, 3622 Winding Way Road, S.W., Roanoke 24015

Eleanor Duke, now Sister Mary Fidelis, S. C. N., is a faculty member of the Dept of Library Science at Catherine Spaulding College in Louisville, Ky. *Eva Busemann Hansen* of Bothell, Wash. has three children. Her husband recently received his PhD in oceanography and is now doing research at U of Washington.

Virginia Crim Draper, husband and two children are living near DC, in Springfield. *Nancy Moxley Stone*, her husband and two children spent Thanksgiving with us. We had happy hours chatting about many of you and wondering where you are and what you are doing. Please let either of us know.

Don't forget your annual gift to our wonderful Alumnae Association. Our class must make a better showing on the next fund re-

port. Send in your contributions soon to help perpetuate those things which have meant so much to us. Best regards,

NANCY

Well gals, this is the year! I can't believe that ten years have passed since we were at MWC, or perhaps I really just don't want to believe that it's been that long. Where has the time gone? I hope that many of you will come to the reunion and have a ball! Wish I could be there in body instead of spirit. Well, on to the news continued from last issue:

Elizabeth Hawley, in DC, works at the pentagon. She was in Japan and Korea several years for the govt. *Gretchen Schulze Mulligan* is in Alexandria where Hugh is asst treas of Intermediate Credit Corp. They and year-old son expected to move to a new home last June.

Minnie Brooks Rainey Mayberry, Tom and the two children moved to Hobcaw Point, SC. Tom is exec officer on a Fleet Ballistic Missile sub. They would love to see any of you who find your way out to the point. *Carole Kolton Bryson*, Highland Springs, has two boys. Bill is a dentist and she is communications chairman for Jr Women; also dabbles in flower arranging.

A note from *Marge Webb Wolfrey*. Her youngest daughter, 1 yr, who had surgery Dec '63, is doing extremely well. Good news. A long letter from *Charlotte Fisher Klapproth*. Remember the proposed address directory? Well, Charlotte had only seven orders for it so regrettably we have discarded the idea. The class is on the move so much. Maybe in a few years the idea can be taken up again. News from Charlotte:

Mary Jane Whitelaw Baldree's husband is in Viet Nam with the Judge Advocate branch of the Army. MJ is in Clarksville, Tenn. Last Feb *Sally Cecil* was at RPI for grad work in sociology. *Cecil Valentine Valentine* and *Carter* are stationed at Quantico. They and *Klapproth's* visited *Sue Bedell Albee* and Tom in Philly. Sue is helping in the base nursery school.

Jackie Davies Woolfolk and family have a summer home near Ocean City. *Jackie Whitehurst Hertz* lives in Hawaii and is teaching kindergarten. *Barbara Trites Peterson* is in Durham, NC; had her 3rd boy Dec '63. *Lucy Abbott Larom*, son and husband are in Kenya. I have no other info or address.

Now on to "new" news: *Betty Nance Westfall* attended MWC for one yr and then went to Johnston-Willis Hospital School of Nursing. She married a Kansas boy who is an electrical engineer for Sperry Gyroscope Co. They have a girl 5 and a boy 3.

A note from *Jane Barry Stewart* saying she enjoys living in Selma, Ala. Hartsell is a surgeon and Jane is more than busy with a son 4 and 1-yr-old twins, boy and girl. She hopes to attend homecoming this year as does *Phyllis Kyle Stephenson*. Good. Hope you all make it.

Another "hopeful" reunion attender is *Eloise Reed Gabrik* who received a masters of edu in Psychology and Guidance from Loyola College June '64. Congratulations, Eloise. Hubby John was busy last spring working on the gemini project and traveling between Baltimore, Denver, and Cape Kennedy for Martin Marietta Co.

Also a note from *Consuelo de Choudens* from Brewster, NY. She married John Langan, a claims adjuster for an insurance co, and they have a girl 3. Connie is a social worker with court committed delinquent boys. She would love to hear from anyone who is in the NY area.

A nice letter from *Ann Dunaway Criswell* told of a Fulbright scholarship awarded to her the summer of '64. She was at the American Academy in Rome for six weeks and says it was a fabulous experience. Her class at the Academy spent each day visiting and studying buildings, ruins, museums, and monuments in and around Rome. Then she spent two weeks at Naples at the Vergilian School which was also a tour course with lectures. She managed to do some independent travel to northern Italy, Florence, and Venice. Now she is back at Edgewood Jr HS in Merritt Island, Fla, where she is chairman of the English dept and sponsor of the Latin Club. Congratulations, Anne, from us all!

Dottie Booth married a Methodist minister, A. Dewey Sanders, the summer of '64. They live in Corbin, Ky, where he is pastor of Trinity Methodist Church. Dottie has an MA in Student Personnel Administration from Syracuse U. She has been on the admin staff of Cumberland College for several years and teaches part time in the Edu and Psy depts.

Now I am going to "toot my own horn" a bit and say that we are delighted to welcome a son to our family—born Dec. 9. The nicest Christmas present of all!

Unfortunately it was impossible to write, call, or see everyone in our class when Kerry and I came East in Sept. Apologies all around. Will try to make our 10th reunion (you, too) in two years, then we can all see each other again (oh, dear!). At this writing, most of my news material is in storage and inaccessible until after the first of the year, but here is a little I have gleaned over the past few months. I'll have to rely on Ozzi to provide more.

Congratulations to *Charlene Parrotts Dahl* and Norman on their 1st child, a boy last Aug, in Yonkers, NY. *Rose Inge Edmonds* in Montrose, Calif three yrs now is not teaching this year but she and the boys, 2nd and 3rd graders, are keeping up with their riding. She is supervisor of a County Welfare office there. Also had a fun-filled get together with *Barbara Kowalzyk* and *Mary Gale Buchanan* Hockenbury for a one night stint in Phila.

I was in Richmond in Nov and lunched with Ann Hutcheson Arthur and her mother. Ann expected a baby in Feb. We stopped by to see Jim who was working on a catalog for his furniture co, Towne, Inc. There I tested some very lovely examples of his work and found them comfortable and exciting.

Greetings, Class of '64: Much can happen to one person in six months and each individual of our class seems to have filled the months since graduation with vigorous activity.

Ann Boyd McCallum spent her summer traveling in Southeast Asia after visiting her parents in Bangkok. She returned to the US via Europe and is now at Yale, finding the Southeast Asian Studies program quite a challenge. Donell McCrosky and Jackie Pugh left for Germany the latter part of Nov and plan to travel through Europe by working in different countries.

California has attracted a good portion of our class. Sara Alice Hayes is near Fresno teaching at Teague Elem. Hear that Judie Itchek, Kaybe Boschen, and Sandy Williams are living royally in Bakersfield. Barbara Wyatt Wood and Harold are in Paso Robles and expected a baby in Jan. Kathy Fraughnaugh Jones is in UCLA grad school.

News from Marilou Pollock, in southern Cal, finds her on Balboa Isle teaching 5th gr in a school "with very modern facilities right down to wall-to-wall carpets and air-conditioning." She and Charlie plan to marry in July and live in San Clemente. Marilou saw Bette Lewis Chambers and Russ, who were on the way to Hawaii for three years.

More Calif MWCers include Tracy Gilgoff, Susan Perry, Ellen Southgate, Reva Sheehan, and Gail Jenks '63, who "are having a ball living in a house on Mission Beach in San Diego." All are teaching. Susan writes, "Recommend it for anyone single and looking for a great time—definitely no male shortage." These girls had visits from Maria Maracie, Suzi Turner, Betty Gregory, and Peggy Morgan (who live in Bakersfield), Prunie Wyrick from San Francisco where she works for the Bing Crosbys, and also from Nancy LaRoe, when she visited the coast with her parents last fall.

Back East in Fairfax Co are Margaret Goode, and Donnah Payne, who share an apt

at River Towers. At their first party in Nov were Diane Dorin, Judy Hunt, Sue Swann, Lynn de Blois, and Winnie Doyle. Judy Presson became Mrs. Carl Anderson in Aug, teaches English and journalism at Falls Church HS and sponsors the school paper. Sylvia Sanfilippo has 3rd graders at Fairfax. I, too, am in the county teaching Frosh English and Latin II at R. E. Lee HS in Springfield. And I thought they kept us busy at MWC! Either side of the desk, keeps one pretty busy I guess.

Teaching 3rd gr in Alexandria is Edna Knight Roberts. Ann Tilghman teaches in Roanoke. Nancy Via married Benny Firestone June 12 and lives and teaches in Salem. Pat Pates is a soc worker in Richmond. Wilma Hester teaches French in C'ville. Norma Bass married David Howard in June and teaches at Quantico. Sandra Eastridge married Thomas E. Plummer in Aug, lives in Woodbridge and teaches 4th gr. Jeannette Allison lives at Hampshire Pl, Richmond and teaches PE at Meadowbrook HS. Medora Powell is math teacher in Glenn Dale, Md.

Janet Garofall Deal teaches English at JMHS in F'burg. Susan Carter teaches in Stafford. Karen Shoemaker and Sharon Belknap are at Spotsylvania HS where Karen has PE and Sharon Am History. Sharon, who sponsors cheerleaders, writes, "Outside of school activities this teacher doesn't have time for anything else, but I'm not complaining." Jo Anne Christian is also at Spotsylvania teaching 7th gr science.

A classmate with political ambitions worked as administrative aide to the F'burg City Manager until the last of Oct. Leonora Guarria James, a pol sci major, started her public service career while her marine Lt. husband is stationed in Calif. Speaking of the armed forces, Patricia Ann Hess is entering the WAC.

Wilson Line-

burgh Baldwin graduated from Long Island U and teaches 1st gr in Brooklyn while Stephen Lee works for his masters in Bus Ad at Columbia. One of her former roommates, Janet Gallagher, is 1st gr teacher in Jacksonville, Fla.

Carole Ann Turrisi is a co-op teacher of French and Spanish at two schools. She lives in Johnstown, NY and writes, "I'm still single." Ellen Sue Blum, a mathematician for GE Space and Missile Plant, plans a June marriage to A. Roy Rosenthal, a student at NY Medical College. Eileen Canada was to marry Dec 19 in Athens, Ga.

Linda Griffin Robinson enjoys the ocean at Litchfield Beach, SC, where she and Jay live while he works in nearby Georgetown as chemical engineer for International Paper Co. They will return to Va in April when Jay begins at Ft Belvoir a two-year tour as Lt. in the Army Corps of Engineers. Linda sent news of several classmates:

Sarah Vaughn Edwards married Jim, an army Lt., Sept 1962. They live in Battle Creek, Mich and expected their 1st child in Oct.
